Driver side (offside)

Cab at the front (right). Phone number should be readable from 20 m: at true scale it is roughly 150–170 mm cap height.

Passenger side (nearside)

Mirrored colour sweep so the graphic rises towards the front. Text sits clear of the sliding door handle area; the sign-maker should adjust around the door seam.

Rear doors

Logo straddles the door split; keep the phone number clear of the rear lights and number plate area.
